Sharon

Further to our conversation last week I have calculated the following:-

I have estimated the cost of maintenance in March 2019 and therefore the total cost from April 2018 to end of March 2019 will be approximately £16725 against a budget of £19800

As requested I have put forward a quotation for the maintenance of Butt Field for both a 6 month and 12 month period from 1st April 2019.

As you can appreciate our work is heavily weather dependant and estimating cost is difficult, especially after having just had a year which included the 'Beast from the East' and then the hottest summer for 40 years! Therefore whilst the estimates are as accurate as possible there may be some flexibility needed depending on weather conditions in 2019/2020.

As discussed in our conversation last week, Larch Groundwork Ltd would ask for a 30 day notice period should the council wish to terminate either the current agreement, or any further agreement entered into in the future. This is simply to allow for the re deployment of resources and movement of equipment from the site.

I hope this all makes sense but please do not hesitate to contact me for further information.

Best Rgds
