

## **Policy Review**

All the existing policies of Bingham Town Council are over-due for review and re-adoption with new policies previously requested outstanding. The Council's governance should be a continuous cycle of improvement to reflect the evolution of the Council.

It is standard practice for Councils to re-adopt their existing policies at its Annual Council meeting. This is no longer the practice at Bingham.

The Committee is asked to:

- Include as part of its priorities for the year ahead a review of its policies, the updating of policies and the writing of previously requested policies to be brought to Council for consideration.
- Refer to the HR Sub-Committee to establish the resource required to commit to this task
