The committee noted the report on progress and agreed to capture the views of the sports club at this early stage.

The representatives of Bingham Sports Club confirmed that they had concerns over the safety of the visitors and players, as the training area was in close proximity to the proposed car park and access road. The potential loss of any part of the training facility or loss of any car parking spaces for the Club was a concern due to the club being at capacity. The security of the site and access for the Sports Club would also need to be considered. The indicative layout of Butt Field Sports Clubs progression plans provided previously, was confirmed as still valid. There had been no progression with plans as the purchase of additional land was on hold, due to the Crown Estates review.
