

Planning for our future

Artist's impression of proposed
main teaching block

Bowmer + Kirkland has been selected by the Department for Education (DfE) as the main contractor to redevelop Toot Hill School in Bingham, Nottinghamshire.

The transformative School Rebuilding Programme (SRP) proposals include the demolition of most existing buildings and the construction of two new school buildings - a main teaching block and a second block of teaching spaces and the sports centre. The current sixth form college block will remain.

The DfE has tasked Bowmer + Kirkland with developing a scheme that will; better accommodate students, staff and the community; enable the school to remain operational on-site during construction; target net zero carbon in operation; and provide improved facilities.

The project team would like to invite the local community to share their feedback on the plans at a drop-in style public exhibition or via our website before a planning application is submitted to the local planning authority.
